

INDACO

REGINA ISABELLA RESTAURANT

menù

The table is a meeting place, somewhere to gather, a source of sustenance, food, and festivities.

A person who cooks is a person who gives.

Welcome to Indaco.

the dishes

Ancient stories of sailors and fishermen, multi-coloured fishing boats that furrow the island's sea that becomes indigo at dusk: our mission is to narrate the soul of Ischia through food making.

A 12-year long adventure during which we have given new shapes and new content to our philosophy, today based on the desire, more than ever, to spread the products of Ischia, our traditions, our gastronomic culture that has spanned the millennia, renewing itself around an unchanged basic idea: the bond with the territory.

They ask me "How long have you been a cook?" and I answer, "I always have". I think of my cuisine just like a boat of a thousand pastel shades resting on a beach crowded with children and a stormy sea after a thousand battles.

To those who follow us, to those who love us, to those who dream of us goes my invitation to taste our sea, and then cherishing the memory of it and taking it on an imaginative journey all over the world that starts from here, Ischia, and then leads us back here, to our enchanted places.
